Overcome the Material Desire and Attain Sainthood—
A Mystically Imaginative Name, Ya Wen Chen

Ya-Wen Chen
Far East University

ABSTRACT

The name is not only a denotation but also a connotation of life that a human being participated in Nature’s nourishing. So the name can represent a personal story that symbolized the previous life, this present life, the future life. This study tries to explain my name with a religiously holy mood in order to listen to remote forgotten information and awake inner spirit. Whoever may so, the myth perhaps a true past over what the history recorded.
